

Governance Structure and Scheme of Delegation

The governing body as a whole is responsible for the governance functions of: ensuring clarity of vision, ethos and strategic direction; holding the school to account for educational performance and overseeing the school finances. To manage this work, areas are delegated to committees, the Leadership and Management Committee and the Teaching, Learning and Achievement Committee. An additional small committee takes responsibility for the Headteacher's Performance Management.

The Leadership and Management Committee work closely with the Headteacher to develop and manage overall vision and strategy leading to school improvement. Responsibilities include the school budget, personnel and premises. The Teaching, Learning and Achievement Committee focus on the delivery of the School Improvement Plan undertaking monitoring and evaluation of the curriculum, educational performance and provision for vulnerable groups, including special needs.

The committees meet every seasonal term and key points and decisions made at committee level are shared with the full governing body which also meets every seasonal term. The terms of this Scheme of Delegation are reviewed at least annually.

Parental feedback is invited via Parent View and questionnaires and helps inform and improve governance. Should parents wish to contact the Governing Body they can do so via the Clerk on CLerk@yalding.kent.sch.uk

Name of Governor	Category of Governor	Appointed by:	Date of Appointment	Term of Office	Date stepped down	Responsibilities	Committees
